

SPORTS PORTRAITS

PREPARING FOR PICTURE DAY

TEAM FOLDER

We will have a team folder for each group we have received a roster for. This folder should be in alphabetical order. Please give each player their QR code.

PREPARE PLAYERS

Group up/ line up players for the photographer(s). Advise photographer if you have a specific pose in mind for your group. Please provide any props at beginning of shoot (balls, pom poms, etc) If player has a shirt under the jersey, make sure it matches. If the player does not want the sleeves to show, it is best to tuck them in before getting to your photographer. If player wears glasses they can wear them and we can tilt them to minimize a glare.

QR CODE

The player will need to take the QR code to the photoshoot station. Once done, photographer will give team mom/coach the QR codes back. These are best to hand out directly to the parents as they are used to order pictures. Pictures take up to 2-4 weeks to finalize.

Scan the QR code to see our sports site!
